

LADA GRANTA

Talented in everything

Bright, dynamic, compact and practical – these are merits of LADA Granta. A car that can combine in itself a number of benefits, be reliable at all times, satisfy every day with comfort, economy in use and trendy styling.

Riding light

This compact hatchback is easily adaptable to spacious big cities. Driving through avenues, getting to a motorway, going through new suburban routes – this is what the car was designed to – keep moving and always be ahead

A silver sedan is parked on a paved area with shadows cast by a building and a tree. The car is positioned on the right side of the frame, with its rear and side profile visible. The background features a building with large, light-colored columns and a paved area with a grid pattern. The lighting is bright, creating strong shadows.

Classics of the genre

Sedan – it represent present-day interpretation of classic models. Fast-moving silhouette, popular gadgets and advanced materials. Rational design that ensures roominess and comfort.

Sport car profile

Streamlined body is a sign of a speed car. But this stylish liftback is as well amazingly roomy!

A blurred photograph of a winding road, likely taken from the perspective of a driver in a car. The road curves to the right and is bordered by a metal guardrail. Several road signs with a white arrow on a red background are visible along the left side of the road. The background shows a hilly landscape with sparse vegetation and some buildings in the distance under a clear blue sky. The overall image has a motion blur effect, suggesting speed.

Generous nature

User-friendly for the whole family, appropriate for any purpose. Attractive and rationally designed. A versatile with great many merits, always ready to discover interesting solutions.

GRANTA

Most pleasant appearance in the yard

A light design style open to every one, combining great many elements each one being not only beautiful but also functional. Wedge-like moldings form a corporate identity X-type pattern appearance of the car front. Large-size, bright lighting. High glazing surface area enhancing visibility and making the car look lighter.

That wonderful case when one can surely put an equal sign between the notions of «a practical car» and «a stylish car».

- External electric trunk unlock button отпирания trunk: a user-friendly system enabling going without a key.
- 15-inch alloy wheel rims: a special design style make the car appear more dynamic.
- Large mirrors: combined with the low window sill line ensure great visibility.
- Headlamp switch-on delay function: the car is seeing you off when leaving the parking area in darkness hours.

A detailed view of the driver's side interior of a car. The steering wheel is black with a silver L-shaped logo in the center and 'AIRBAG' text at the bottom. The dashboard features a digital display showing '1254', '40', and '469'. To the right, a touchscreen infotainment system displays a menu with icons for 'Приложения', 'Яндекс Музыка', 'Андройд Авто', and 'Телефон'. Below the screen are physical buttons for 'MUTE' and volume control. The center console has a gear shifter with a 5-speed manual transmission pattern (1, 3, 5, 2, 4, R). The driver's door panel includes window and mirror controls. The overall interior is dark-colored with a textured fabric seat.

Cosy atmosphere

This versatile car is ready to impress and give pleasure. Megacity dwellers, camping trip enthusiasts, experienced and amateur drivers... We all appreciate a roomy interior and comfortable seats, efficient air conditioner and good visibility.

- Seats with lateral support: comfortable seating in the easy chair.
- Driver's seat height adjustment: adjustment in the range of 40 mm.
- Comfortable geometry of the headrests: a well-thought-out element safety and comfort.
- Function of courtesy light delay after closing the door: easy preparing for driving.
- Instrument cluster with white light: enhanced legibility and neutral colour.
- Windscreen heating: protection against fogging and icing.

A black and white photograph of a car's interior, focusing on the front passenger seat and the driver's seat. The seats have a dark fabric with a light-colored diamond-patterned mesh on the backrests. The driver's seat is visible in the background, and the steering wheel and gear shift are partially visible on the right side. The text "Fine tuning" is overlaid in the lower-left quadrant.

Fine tuning

Each button and little lever is in its proper place. Comfortable adjustment of driver's seat. A set of cup holders and niches for small items. Familiar, intuitively clear and ergonomical – in such car you feel at home. Because everything is designed to comfort and usability: from well-legible lighted instrumentation to the noise insulation package. From gear-change selector to trunk unlock electric button.

Remote central locking

Enables remote locking and unlocking the car.

Electric window lifters of rear doors

A passenger friendly option.

Rain and light sensors

Automatic switching of the headlamps and the wipers.

Full package of noise insulation

For comfort in short and long trips.

Electric actuating and heating of exterior mirrors л

Good visibility and ice protection.

Brake cruise

Maintains safe and economic driving speed.

Climate control system

Comfortable interior temperature independent on season or weather.

Parktronic

Secure and parktronic back run manoeuvring.

A car which is always prepared for communication

Familiar routes, favorite music, contacts in the phone – LADA EnjoY Pro multimedia will at any time give a tip and help. The driver doesn't even need to take his mind off the road – voice assistant is always ready for dialogue and to switch on the audio system customized for LADA Granta.

Comfortable and high-speed as a smartphone, LADA EnjoY Pro supports Apple CarPlay, Android Auto systems and full set Yandex services. LADA EnjoY Pro is integrated in the car systems, it is always ready for communication and actively considers user's preferences offering optimal routes and playlists. LADA EnjoY Pro – it is a luxury of stereo sound, precise operation of the navigator system and familiar set of Smartphone functions.

- Yandex.Music: all world music is available with LADA EnjoY Pro;
- Yandex.Browser: quick search, voice search command facility;
- Yandex.Navigator: high zooming of maps and their continuous updating, as also Yandex service. Gas stations and map of official LADA dealerships;
- Alice: the voice assistant that always supports interactive conversation and activates a desired Yandex service;
- you can select one of your familiar systems: Yandex. Auto, Apple CarPlay or Android Auto;
- Stereo sound: ARKAMYS technology ensures faithful and natural reproduction of music with proper account taken of interior trim materials, performance of the speakers and their arrangement in the in car.

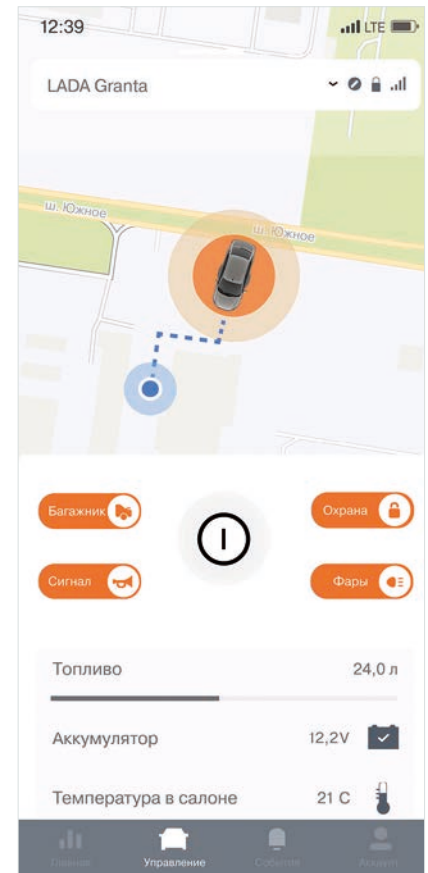

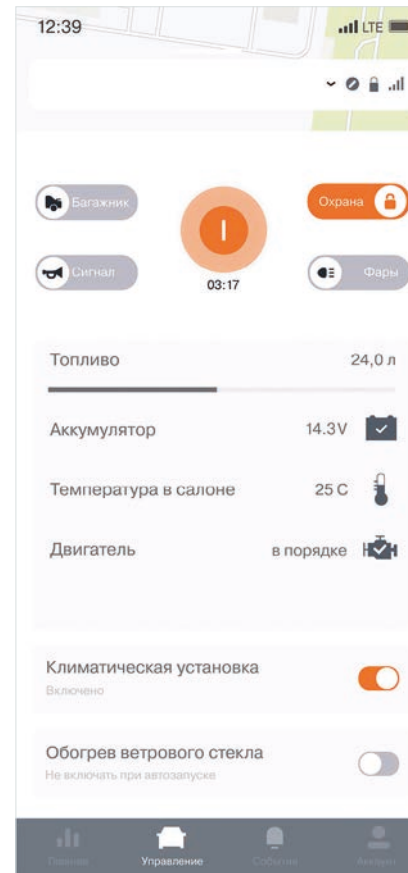

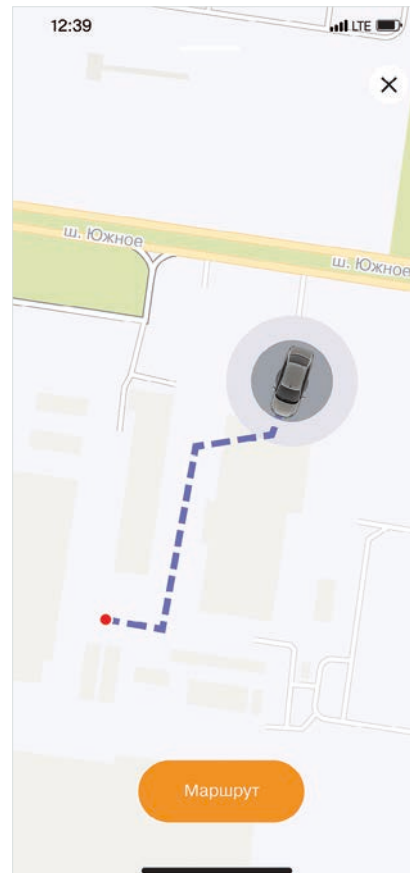

LADA Connect: functions of the car on the Smartphone screen

LADA Connect – system enabling, by means of mobile software on iOS or Android platform, remotely control LADA cars and their systems. LADA Connect makes it possible to do the following in one touch:

- Know where the car is located;
- Start or stop the engine;
- Switch climate-control and windscreen heating;
- Control door and trunk locks;
- produce audio alarm;
- Switch on dimlight;
- Check level of fuel and battery charge. The system also assesses driving habits and gives recommendations on more Accurate and safe driving.

When «cross» is not just a word in the nameplate

LADA Granta Cross is a compact crossover, a roomy station wagon and a stylish traveler. The car that is drawing the eye and capable of solving variety of tasks.

- Off-road ground effects: style attribute of a crossover and protection of enamel in light off-road conditions;
- Roofracks: secure and stylish load fastening system;
- 15" alloy rim wheels: a brutal combination of silvery metal and dark-grey lacquer;
- Encouraging geometric passing through ability: short overhangs and high clearance enable secure passing through the track pits and parking among curbstones and snowdrifts;
- Mesh for holding the load in the trunk: the things will not be rolling on the trunk floor;
- Trunk liner: for keeping it tidy;
- Interior trim of Cross: contrasting elements highlighting the bright image of the car

A blue LADA Granta Quest is shown from a side-rear perspective, driving on a winding asphalt road. The road has white lane markings and a metal guardrail. The background is a blurred landscape of trees and water, suggesting a scenic route. The lighting is warm, indicating sunset or sunrise.

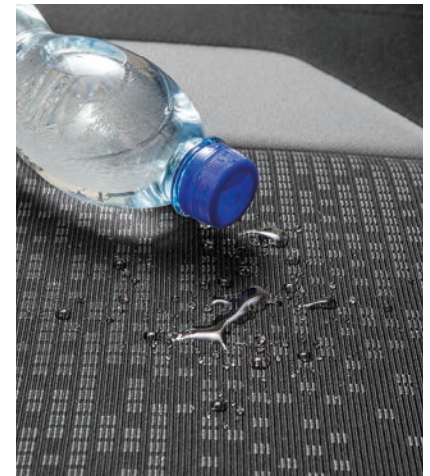

Special series #Quest

The word «Quest» means crossing, passing, cracking tricky riddles. But it also has another meaning and that is traveling. Which is to be not only absorbing but also comfortable. And, of course, stylish – which is proved by LADA Granta Quest series.

- 15" alloy rim wheels: expressive style design of the rim spokes and contrasting paint coloring;
- Roof and roof racks are painted black: a special touch for dynamic style;
- Special seat upholstery: water-repellent fabric with Quest logo on the front seats;
- Windscreen heating: anti-fogging and anti-icing means;
- Parktronic: secure and parktronic backing;

- Quest style floor threshold: stylish and practical;
- Rubber trunk liner and luggage net: comfortable space arrangement and careful cargo carrying.

Welcome to #CLUB

LADA Granta – is a multipurpose car. LADA Granta in #CLUB grade – a car for customers who want something more from a vehicle. For example, interesting design solution and comfort which would become more available.

- Black varnish on housings of the mirrors is contrasting with body painting and accentuates the special status of the car;
- Wheel disks with diamond grinding украшают the car and make it even more attractive;
- #CLUB lettering – indispensable attribute of a limited series;
- Windscreen heating – ensures against fogging and icing in a cold season;
- Rear parking sensors: the system enables moving securely among buildings and other parked cars;

- Reversing camera with static parking lines: a weighty plus to comfort and safety;
- LADA EnjoY Pro Multimedia system with intrinsic Yandex.Auto services: a functional set of the smartphone in the car.

While other people are sleeping

Granta Drive Active gives fun of active driving with gusto every day and in every trip. Drive Active implies sporty attitude. This is a car that goes steadily through road turns. It features tight fit seating in a contour chair and recognizable low profile body lines.

- Exhaust pipe with a chromium plated end: a sport style element;
- 15'' original alloy wheel rims: distinctive feature of the car;
- Suspension with sport style adjustments: makes it possible to sharpen sportive driving skills on a daily basis;

- Seat upholstery: contrasting red and black colours are representative of a car designed in LADA Sport;
- «carbon» inserts in the centre console: sport fashion trimming;
- Instrument cluster with red scales: charges with energy at a glance.

Accident prevention

LADA Granta – a car which you trust. It enables secure driving both on a motorway and in a tight built-up urban area: very good visibility is accompanied with parktronic system and reversing camera. While electronic systems and robust load-bearing unit body secure reliable protection of the driver and the passengers.

Antilock Brake System (ABS) with Electronic brake-force Distribution (ABS + EBD)

Maintains steerability of the car at emergency brake application.

Urgent alarm system «ERA-GLONASS»

Automatically informs rescue service of traffic incidents.

Location of attachment points of child restraint systems ISOFIX

Secure and fast fixation of child seats.

Front safety airbags

An essential system saving in case of a front impact.

* The options are not for all specification packages.

System electronic stability control (ESC)

Designed to withstand skidding by automatically aligning the car on the road.

Electronic traction control system (TCS)

Secure starting on inconsistent road pavement.

Brake assist system (BAS)

Boosts pressure in brake system in case of emergency deceleration.

Locking of rear doors against opening by children

For safe carriage of young passengers.

Driving with pleasure

LADA Granta is suitable for any road types: increased suspension strokes will come in on earth road sections as performance attributes, while on asphalt paved sharp turns – special chassis settings enhancing steerability. Soft flaps serve to isolate against road noise. On a slippery pavement the car surely follows steering wheel turning owing to precise and fast operation ESC. A variety of state-of-the-art technologies have been implemented in LADA Granta design to make the trips nice and interesting.

Among LADA Granta family models one cannot only choose a desired body type but also power train suitable for individual driving habits.

90 hp engine

High-thrust and economic 8-valve engine has become even more responsive: engine power is 90 hp, a 80 % torque is already available at 1000 rpm.

98 hp engine

Dynamic 16 valve engine is designed to be efficient throughout the whole rpm range, while at the same time reducing friction losses, noise and vibration levels.

106 hp engine

16 valve engine with inertia supercharging system: special flaps change intake module volume in function of rpm. Owing to that the engine has increased flexibility in the most frequently used range of 1000 ... 2500 rpm.
