

# LADA NIVA LEGEND

## WANDERLUST

The digital age has divided us into those who press Like and those who press Gas Pedal. One leaves a comment “cool mountains!”. Other leaves tire traces on the slopes. It’s nice that virtual travel can become real-life, for this there is a special portal. With a powerful suspension and full-time all-wheel drive.

## NEW READING OF CLASSICS

LADA Niva Legend is a car with the 100% genuine, assertive and concise style, with every part that matters. Short overhangs improve off-road performance and allow for safe parking close to curbs. A compact body is a smart solution both for city and forest. Rounded lines of the hood, doors and wheel arches are a classic form that's timeless and always up-to-date.

- Full-time all-wheel drive means instant readiness to surmount obstacles.
- Steel crankcase protection is a strong and reliable part contributing to steadfast combat of dirt tracks and snow parapets.
- High seating provides excellent visibility, important both for off-road and urban environment.

## BEST VIEWPOINT

It's the most convenient place to view the landscape. Sunset, sunrise, mountains, waterfalls and forest-steppes are best seen from here.

Wherever you go, it is from here, from the LADA Niva Legend cabin, that you will see how nature reveals in all its diversity. Here a bird flew out from under the wheels. And then the fox flashed in the beams of the headlights. The familiar silhouette of the hood against the backdrop of greenery, sand and winding ruts ... You can admire the views from behind the steering wheel endlessly.

LADA Niva Legend is a car with all its performance verified and balanced. Harmony of style, comfort and functionality – this philosophy is also a cornerstone of the modern interior of the Off-Roader.

- Front seats: advanced lateral support, stylish upholstery, full set of headrests.
- Instrument panel with electronically controlled air conditioning: perfectly embedded into vehicle's design.

# TOWARDS THE HORIZON

No more white spots on the map. There is only one thing that left and most important one is to discover the world yourself. Experience the delight of movement unconstrained. Look in the mirrors at the plume of dust or snow sparks behind the car. Stop for a while, admire the landscape, the car against its background, and jump there inside your car with a comfortable environment! Come home and look again at the dirty car. It's nice looking like that- with dried sprays and sticky blades of grass ... Just don't forget the main thing: the healing layer of mud needs to be refreshed from time to time!

## ON THE EDGE OF CIVILIZATIONS

Loose surfaces to be traversed by the move. Large stones and roots to be carefully overridden. A stream half a meter deep is not an obstacle at all. And on a dirt road it's already fine to accelerate to nice speeds ... As if you are coursing at an ultra-low altitude! That's a real fun! This is kind of inspiration, the strong force sensed only when you descend from heaven to earth. When you sit in a regular passenger sedan. When all over again you are triggered to follow closely what is under the wheels. When all over again you lay your route only on good roads - and your eyes and soul are drawn to shady clearings of mountain passes.

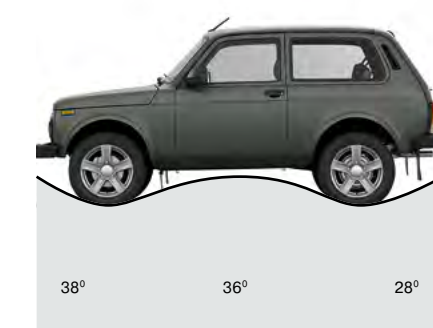

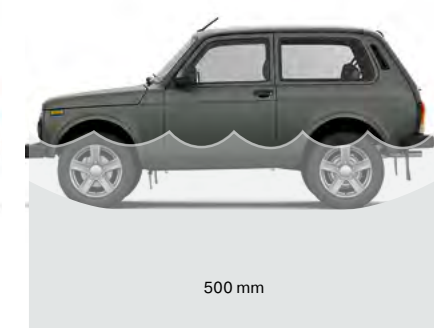

Russian Antarctic Polar Station "Bellingshausen", 1990.

LADA Niva conquered mountain peaks, Antarctica and the North Pole, three times got the podium of the Paris-Dakar Rally. It's designed for extreme conditions. But to experience it, you don't necessarily need to start for an expedition. It's just enough to drive off the road at least once. Destinations, out of the reach for 2-wheel drive cars, reveal in a special way the character of the car ....And its driver.

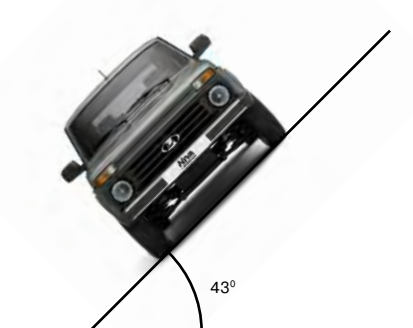

- Transfer case: possibility to lock the center differential and use a lower range of gears.
- Full-time all-wheel drive: the car always ready to move off smooth asphalt.
- Multi-purpose tires: for urban and off-road.
- Clearance - an impressive 200 mm.
- Departure angle is 28 degrees.
- Approach angle is 38 degrees.

**CITY & HIGHWAY**  
High gear engaged, center differential unlocked. In this mode, NIVA is ready for travel and daily trips on asphalt, but at any instant capable to prove its superiority over mono-drive cars.

**GOING OFF-ROAD**  
Center differential locked: orange indicator light on. Low gear engaged.

**PERFECT CHOICE FOR ASPHALT**  
Torque is well-balanced between all wheels.

**DIFFERENTIAL LOCK FOR HEAVY DUTY**  
Rotation is transmitted to the front and rear axles in a 50/50 ratio. For slippery ascent or descent, rugged terrain, driving in deep snow, loose sand, on muddy ground

**INSTANTLY READY**  
The car is set up to drive in urban and highway cycles, but instantly ready to ride out of hard paths.

**LOW GEAR**  
For confident driving on sand, snow, deep mud, on a steep ascent or descent, in cramped conditions (in forest, on narrow mountain roads), when towing a heavy trailer, starting with a cold car.

# KING OF STONE JUNGLE

Do not be surprised, but every second LADA Niva owner rarely goes off-road. There are enough adventures in the city already! Jump over a curb, overcome a dug-up area, drive onto a snowy parapet... LADA Niva Urban will do it with ease and with urban chic!

- Urban comfort set. For the Off-Roader living in the city, a basic set is required:
- heated seats and mirrors, air conditioning, athermal glazing.
- Integrated body-color bumper: car's silhouette becomes more integral.
- Rocker panels: chrome strip decorates the bodywork and protects the sills.
- Fog lights: increase driving safety and refine the style.
- Seat fabrics: the special pattern hallmarks the Urban version, makes the design more fascinating.

- Enhanced noise insulation: extra vibration-damping elements glued on the body panels and engine compartment protection.
- Floor tunnel overlay: convenient layout of the buttons and a niche for small items.

# SUPER-NIVA

Even more off-road capability. Even more off-road style.  
Even more freedom and genuine Niva character.

# CONQUER OF NATURE

The car that has become wider, higher, more brutal, and a bit of roughness suits it well. All the more reason, each new style element contributes to LADA Off-Roader's performance.

- Rocker panels and wheel arch extensions: create a brutal look and protect the paintwork.
- Roof rails are a necessary system for securing cargo for long-distance and short-range expeditions.
- Contrasting instrument illumination is easy-to-read, and the on-board computer has got an extensive set of features including fuel consumption data.
- ERA-GLONASS System: in the event of an accident, it automatically calls emergency services, transmits information on the date and time, vehicle's coordinates and severity of an accident. The driver can also manually call for help by pressing a button. ERA-GLONASS operates even if vehicle's main battery is disconnected.

# SUV? ATV!

Reinforced chassis, increased ground clearance, enhanced off-road performance. LADA Niva Bronto embodies the best solutions developed by jeepers, sportsmen and engineers.

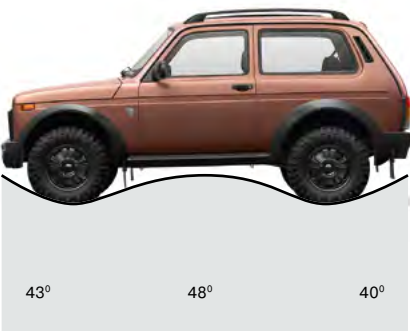

- Off-road tires: advanced lugs increase flotation.
- Super Suspension: increased wheel travel and improved energy efficiency.

- Self-locking screw-type cross-axle differentials in both axles: a reliable tool when hanging wheels.
- Ring&pinion gear ratio 4.1: increased thrust.

- Ground clearance 240 mm: body lift legalized and safe for the chassis structure.
- Trunk with headlights: let there be light!

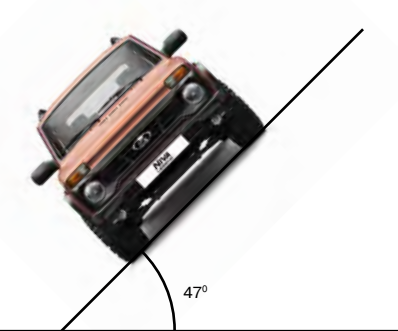

- Winch: reliable insurance for off-road travel.

## LADA NIVA LEGEND [BLACK]

Each line is refined, elaborated and balanced. We recognize this silhouette even if it flashed in the background of a movie. But there is something subtle that has changed... something changing the character and style.

- Fine lines in each letter. «Black» is concise, just like command «Go». Like the click of a lever when downshifting. Capacious like the LADA Niva Legend design and its very essence.
- [BLACK] -style wheels. That's a real talent to prominently stand out against the general background. Amid a backdrop of millions of white and silver wheels. Amid a backdrop asphalt fields. Amid a backdrop of the colors of nature, where LADA Niva Legend owner absolutely loves to drive.
- [BLACK]-ceiling and [BLACK]-seats Uniform Style in all interior. A versatile approach for the most versatile car that looks cool both in city and in forest

# OFF-ROAD SAFETY

See beyond others. Pave your own path. Think two steps ahead. Be empowered to get out of any complexity. What superhero car abilities do you still know?

**DRLs**  
Bright running lights switch on automatically when the engine is started.

**ERA-GLONASS  
EMERGENCY CALL SYSTEM**  
In the event of an accident, it automatically calls the emergency services.

**REAR HEADRESTS**  
For rear passengers' convenience and neck protection from injury in the event of a rear-end collision.

**ISOFIX CHILD  
RESTAINS POINTS**  
Fast and reliable fixation of seats in the rear seat.

**GOOD HANDLING**  
Special settings for tires and shock absorbers - LADA Niva Legend is fully adapted to current pace of traffic.
